# OPEN CALL

FOR INDEPENDENT ART SPACES  
AND ARTIST COLLECTIVES

## M/AAV MANIFESTI

### APPUNTI PER UN'AUTONOMIA DELLA VISIONE (NOTES FOR AN AUTONOMY OF VISION)

**Spazio Y**, a group which has dedicated itself for years to research and experimentation in contemporary art, invites operators of **independent art spaces** and **artist collectives** to take part in **M/AAV: Manifesti/Appunti per un'Autonomia della Visione** project, which will take place in Palermo during the **Manifesta 12** event.

Groups and individuals are invited to express their specific cultural, ideological, economical and operative idea of **independence** from the official artistic system, through the ideation of a **graphic and/or verbal Manifesto**<sup>(1)</sup> in digital format.

The **open call**'s objective is to reflect collectively on the meaning of being independent today.

The results that emerge from this analysis will be displayed at **Spazio Y's temporary exhibition space** on the ground floor of **Palazzo Savona** (Via Roma 206 - Palermo), through looping video projections on the street's display window, visible to all passers-by (Palermo citizens and visitors to the Biennale). The project intends to promote innovative points of view and transversal practices, activating an exchange and discussion process with other Italian and international spaces.

In order **to participate**, an email must be sent by and not after the **10th of June 2018**, to **maav@spazioy.com** with Subject **Participation M/AAV**, comprising a Manifesto produced following the instructions in the downloadable file at **www.spazioy.com**

There will also be a **second Call** in the middle of July, so that the project will last through the entire duration of Manifesta 12.

<sup>(1)</sup>Spazio Y reserves the right to reject any Manifesto; an explanation for rejections will be provided.
